Work experience

Backend Team leader

Enjoy learning Educational `VR&AR` platform | April 2018— Till now

Building an educational VR/AR platform.

I have revamped this project from an older application, which failed to scale up based on business needs. Now we are building the future of learning in Egypt, using best methods available, working alongside with the VR/AR & 3D teams is so much fun too.

Senior back-end developer

Egpay payment solution | Aug 2017— Feb 2018

Building and E-payment and E-commerce application.

I have started this project from scratch with the team, my duets were to participate in analyzing/developing an E-payment system like "Fawry" considering the wallet features, and its usability into an E-commerce system which we built too. Working with Laravel we have a stable project now.

Senior Software Developer & Senior IT specialist

Ministry of planning, monitoring and administrative reforming | July 2017 — Till now

Working on various governmental projects.

- *Law enforcement*
- *E-Tenders.*
- *E-Signature*

My duty is Maintaining/enhancing governmental applications and deploying it. Creating a fully secure and isolated environment for the government applications, participate on designing high level environments with high availability.

Software developer

Ministry of state for administrative development | January 2016 — July 2017

My main duty is maintaining some governmental applications and training governmental employees, alongside with developing some governmental web portals.

Web development trainer

Trust training center | July 2015 — December 2015

My main duty is to teach web development tools and languages to trainees, in TRUST training center they had 4 tracks for web development which I have participated in putting them together, and I do teach them all as well.

Web developer

SeedBin (Kuwait) | Feb 2015 — June 2015

Working on governmental time, tasks and treatments organizing application at the National Assembly of Kuwait.

Web developer

Taphaneen | July 2012 -- October 2013

As a web developer, I was responsible of building and enhancing the functionality of Taphaneen.com website which is global network for artisan goods of all kinds. Dealing with:

- Sellers, buyers, Goods, payment.
- Groups and friendships between users.
- Own stores for each seller with design controls for sellers to use.
- Along with control panel for administrators to work from.

Web developer

3eeon agency for advertisement | Aug 2011 -- June 2012

My duties was building websites for clients for the agency, converting PSD designs into web designs and then integrating it with php and MySQL making nice and clean websites.

Web developer

AwladMasr Organization (NGO) | May 2010 -- July 2011

My duties was building websites for clients which were mostly government organization (schools, Hospitals... etc).

Freelancer web developer

None | 2010 and before

Used to work as a freelancer web developer for various clients such as

- Faculty of commerce
- Faculty of Agriculture
- Alkauther Institute
- Higher Institute for the computer and wireless

Attendance

- Block chain boot camp @ [Nile University](#) (2018) batch 1
 - Google Egypt 1.0 & 2.0 events | *Cairo Egypt (2010 & 2011)*.
 - Phonegab event | *Cairo Egypt (2011)*.
 - Android and Html5 and various events | *Cairo smart village Egypt (2010-2012)*.
-

Education
